## SIXTH FORM LEAVERS

This year we had some very interesting and diverse leaving statements – they were extensive and informative, but were few and far between. So rather than print a few I have decided to take excerpts from all that I did receive to give the reader a flavour of what and the way the 6th Formers felt about the College, their memories and perhaps what the future holds. I have not attributed quotes to specific people as some may find it embarrassing, but the contributors will certainly recognise their own work! It should also be made clear that if a quote appears near a particular picture it does not mean that person said it! Leavers' exam results can be seen on page 189.

I was appointed a senior prefect which was a great privilege.

I take part in most sports played at the College and I had the opportunity to captain the first girls' rugby team.

I hope to go to medical school to study physiotherapy.

The memories of St Dunstan's that I will take with me are mainly the fun that I had (usually at my expense) and the great friends that

I have made.

Sometimes the 6th Form Common room can be too distracting at times for schoolwork.

Everyone remembers the Strasbourg Trip (yeah, that one!)

Having finished my degree I hope to involve myself in documentary making on cultural discoveries.

My teachers are some of the most memorable characters that I have ever met (that's a compliment!).

I've made friendships that I'm sure will be maintained long into the future.

I think the school has a warm and lively atmosphere that made a nice change from my last school.

The highlights have been Strasbourg, Normandy, the Fashion Show, the Henry, lying on the grass and all the laughs. Good luck everyone, we've been cool!

I played clarinet in the orchestra and Jazz Band, captained the chess team and briefly played rugby for the school. I have no idea what I want to do yet but it will have to be interesting and challenging.

I have enjoyed myself for the last seven years and glad I chose to come here!

I hope to go to Imperial College to study Electrical and Electronic Engineering.

My favourite memories are all the good times, the recent trip to Normandy with Mr Glynne-Thomas (top bloke!)

Well, it's been interesting!

For those I leave behind, have hope. When it's all said and done it isn't that bad!

I started in the Prep department and I can still remember my first day.

I have been captain of a very successful judo team helping them come second in the National Tournament and winning a bronze medal for myself.

I am grateful to all my teachers for their help especially Mrs Lipton and Dr Patel for all they have done in helping me with university stuff.

If all goes according to plan I will end up interpreting at the European Parliament in Brussels.

I spent seven years working my knuckles to the bone and am waiting with anticipation for my GAP year.

I've made friends I wouldn't exchange for the world.

The past years have been littered with unforgettable moments.

I was privileged to have been involved with both acting and directing.

I have had fun at SDC which has caused my parents to have many aneurysms each time they saw the bills I had run up in and out of school.

I will hopefully be going on to study Sport and Exercise Science at Exeter University.

I have captained the 2nd XV and been a regular in the 1st XV.

I avoided responsibility but enjoyed contributing to the extra curricular activities such as the 'Dunstan's Divas'.

A big thank you to Mr Bodenham for the South Africa tour containing many of my favourite memories.

I am the only student to have my own office.  
I plan to use my time next year to re-establish my personal life.

The experiences I have enjoyed will stay with me for life.

The best thing SDC has done for me was to reach my academic potential.

Thank you to all my teachers for all the help they have given me in and out of the classroom.

My time at St Dunstan's has been a 'real treat'.

I will hopefully take over my father's business.

The highlights of my time here have been the school trips.

My time at St Dunstan's has been fabulous . . . Duke of Edinburgh Award, Fun Movement and sailing.

Whatever you say about St Dunstan's it certainly opens many
